

This document shows the record of single large expense items.

list

num	Name	Unit Price	Quantity	Total	Description
1	arduino_mega2560 development board	64.2	1	64.2	processing signal forwarding.(The records are shown in Figures 1-1 and 1-2.)
2	Car body acrylic plate	20	4	80	Car body and tracker fixing plate;The records are shown in Figures 2-1 and 2-2.
3	OpenCTR_B20 development board	134	1	134	Car master microcontroller.(The records are shown in Figures 3-1 and 3-2.)
4	intel_ax210	98	1	98	wifi chip.(The records are shown in Figures 4-1 and 4-2.)
5	Zeyao full-duplex wireless module	38	2	76	full-duplex version of 2.4G chip, for testing. (The records are shown in Figures 5-1 and 5-2.)

records

The following image shows the purchase and payment history

1. arduino_mega2560

Figures 1-1 Purchase history of arduino_mega2560; file in <. img img-2024-10-16-16-24-45.png>

Figures 1-2: Payment history of arduino_mega2560; file in ./img/img-2024-10-16-16-27-07.png

2. Car body acrylic plate

Figures 2-1: Purchase history of Car body acrylic plate; file in ./img/img-2024-10-16-16-28-35.png

Figures 2-2: Payment history of Car body acrylic plate; file in ./img/img-2024-10-16-16-29-23.png

3. OpenCTR_B20

Figures 3-1: Purchase history of OpenCTR_B20; file in ./img/img-2024-10-16-16-30-31.png

Figures 3-2: Payment history of OpenCTR_B20; file in ./img/img-2024-10-16-16-31-19.png

4. intel_ax210

Figures 4-1: Purchase history of intel_ax210; file in ./img/img-2024-10-16-16-33-11.png

Figures 4-2: Payment history of intel_ax210; file in ./img/img-2024-10-16-16-32-24.png

5. Zeyao full-duplex wireless module

Figures 5-1: Purchase history of Zeyao full-duplex wireless module; file in ./img/img-2024-10-16-16-34-09.png

Figures 5-2: Payment history of Zeyao full-duplex wireless module; file in ./img/img-2024-10-16-16-35-54.png
